RECOMMENDING AWARD OF CONTRACT FOR THE SUPPLY AND DELIVERY OF PORTABLE MILKING MACHINE

WHEREAS, on 2 July 2020, Executive Director ARNEL N. DEL BARRIO, as Head of Procuring Entity (HOPE), approved the revised Annual Procurement Plan (APP) of the agency upon favorable recommendation of the Bids and Awards Committee (BAC);

WHEREAS, included in the APP is the **SUPPLY AND DELIVERY OF PORTABLE MILKING MACHINE** to be undertaken through Section 53.2 (Emergency Cases) of the Revised Implementing Rules and Regulations of Republic Act No. 9184 under the GAA Fund;

WHEREAS, Emergency Cases can be adopted as a method of procurement where immediate action is necessary to prevent damage to or loss of life or property, or to restore vital public services, infrastructure facilities and other public utilities;

WHEREAS, the end-user justified the emergency purchase as follows:

- a) The Gene Pool operates the milking parlor to milk dairy buffaloes on a daily basis all year round. Once a cow starts lactation, it should be milked regularly at 10-12-hour interval daily until dry-off at about 10 months after calving. Sudden or abrupt stoppage of milking or irregular milking schedule will cause reduction in milk production or worse, cause mastitis that will result in permanent damage to the mammary tissue. In this case, even if the mastitis case is resolved, there is no way for the cow to regain its full productivity. Hence, it is very important to have a spare milking unit for the herd;
- b) The recent thunderstorm on June 23, 2020 has caused a damage to the electrical system of the milking parlor. While repair of the electrical system is being worked on, search for the replacement part is very difficult in the last three days. Thus far, replacement part has not yet been found. The exclusive distributor of the milking parlor can supply the parts in 5 - 15 days, time due to the Covid-19 situation. In the meantime, 86 milking cows are being milked using 2 units of 2 cluster milking machine. It would take 10 hours for all cows to be milked with only 2 units working hence, cows are essentially milked only once a day. This has been going on for 3 days and the longer the situation persists, the more damage to the animal productivity. This would translate to a substantial drop in animal productivity and herd productivity as all 86 milking cows would be affected. Furthermore, the Gene Pool is a nucleus herd whose main purpose is to produce breeder animals for dissemination to the industry, having accurate performance record is a must. With the current situation, individual animals will not be able to express their true potential;
- c) The 6 units portable milking together with 2 units existing bucket type portable milking machine borrowed from other centers will enable the cows to be milked twice a day. Prolonged irregular milking of the cows would cause permanent mammary damage that would result in lowered productivity from which the cows may never recover from. That would be more expensive than the cost of the machine in the long run. Furthermore, having a spare milking machine is also in anticipation of future problems to the milking parlor, electrical or otherwise; and
- d) A comprehensive review of system redundancies will be done as well aside from the immediate solution of having a back-up mobile milking machine. Hopefully, the review will result in actions that would anticipate future problems.

A Foodsecure Philippines
with prosperous farmers and fisherfolk

WHEREAS, considering all other factors of the procurement and with due consideration of the needs of the end-user, the adoption of alternative methods of procurement is advantageous to the PCC/government;

WHEREAS, the **SUPPLY AND DELIVERY OF PORTABLE MILKING MACHINE** has the following Approved Budget for the Contract (ABC) as follows:

| Item No. | Item Description | ABC per Line Item/Lot (P) |
|----------|---|---------------------------|
| 1 | SUPPLY AND DELIVERY OF PORTABLE MILKING MACHINE | P 379,500.00 |

WHEREAS, on 14 July 2020, the BAC thru its Secretariat/Procurement Office, initiated the procurement activity by sending/posting Request for Quotation (RFQs) to a supplier of known technical, legal and financial qualifications;

WHEREAS, **ADVIRA TRADING CORPORATION** has submitted their respective quotation/proposal for the requirement of PCC;

WHEREAS, the Technical Working Group (TWG) determined that based on the financial proposal submitted by the sole supplier **ADVIRA TRADING CORPORATION** has submitted the single calculated quotation for the project;

WHEREAS, upon review and evaluation of the compliance with the technical requirements of the procurement at hand, the TWG recommended to declare **ADVIRA TRADING CORPORATION** as the single calculated and responsive quotation;

WHEREAS, the report containing the results of the TWG evaluation is attached hereto as **Annex "A"**, and made an integral part hereof;

NOW, THEREFORE, WE, the Members of the **BIDS AND AWARDS COMMITTEE** after duly considering the justification of end-user hereby award the contract to **ADVIRA TRADING CORPORATION** for the **SUPPLY AND DELIVERY OF PORTABLE MILKING MACHINE** in the amount of **Three Hundred Seventy Nine Thousand Five Hundred Pesos (P 379,500.00)**.

This resolution shall take effect immediately.

APPROVED this 20th day of July, 2020 at Philippine Carabao Center, National Headquarters and Gene Pool, Science City of Munoz, Nueva Ecija.
